TYROLIT

HIGH SPEED CALIBRATING WHEEL

Tyrolit is pleased to present a new generation of tools for the calibration of granite and engineered stone. The combination of a super thick diamond band and specifically developed bond allows both high feed speeds and very long life. Available in different diameters and complete with 1/2" gas adaptors.

Application

Calibration of granite and engineered stone.

+ Very long life:

Class leading 10mm thick diamond band means optimum life.

+ Improved Productivity:

Specifically designed bond means high feed speeds

+ Easy turn over:

Brass body does not rust and allows wheel to be turned over easily. Versions complete with 1/2" Gas attachments have fitting and screws in high grade stainless steel.

Description	90mm wheel only 4+4 holes, 20mm bore	90mm wheel complete with 1/2" Gas fitting	100mm wheel only 3+3 holes, 50mm bore	100mm wheel complete with 1/2" Gas fitting
